## Capri Experience

Properties

Duration 7-8 hours

Capri and his beautiful coastal views will amaze you.

The villages lay under the Italian sun, while the sunray gently lightens up the white and colored buildings built on the rocks that descend to the sea. The natural vegetation and the lemon grows excavated into the hills add a unique peculiarity to our land. The perfect frame for this "painting" is the light blue of the sky and the blue, green color of the sea.

If swimming off a boat in a bay dipping in the blue sea is on your wish list today the dream becomes a reality, as I will drop the anchor in a lovely bay.

While navigating in circle around Capri you will enjoy the full majesty of the island, discovering the grottoes, the famous bays where the mega yacht are mooring. You can also have time on shore if you want to by disembarking in the main port Marina Grande.

**\*The entrance fee to the Blu Grotto can be settled locally**

## Sunset experience
